#### F. BACKGROUND AND EXPERIENCE

***i. Please briefly present the partner organisation (e.g. its type, size, scope of work, areas of specific expertise and specific social context)***

Our company operates under the name "Kıymet Selvi Education Support and Consultancy Limited Company" in Ankara University Technopolis region. As an R&D company, we carry out training activities at local, national, and international levels. Our main field of activity is to carry out innovative research and projects in the field of education. While carrying out these studies, our focus is on school education, adult education, and vocational education in the context of formal and non-formal education. These trainings are carried out face to face and via e-learning.

Within the scope of Educational Consultancy and Support activities, we design, research, develop, design, implement and evaluate curricula for all levels of education, from primary education to higher education, including VET education. In addition, studies are carried out on research method design, measurement and evaluation, test development, design of question banks, educational material design, training module design, and book or report writing. Some of the activities we carry out are briefly summarized below.

1. Design, evaluation, and development of curriculum
2. Instructional design
3. Adult learning
4. School Education and VET
5. Carrying out innovation studies in education
6. Social Impact Analysis and Assessment
7. To improve individuals' learning skills and learning potential
8. To provide individuals with thinking and problem-solving skills
9. Scientific solutions to learning problems
10. Increasing learning motivation and interest
11. Development of teaching-learning practices
12. Providing institutional support and consultancy in education
13. Providing individual support and consultancy in education
14. Conducting project studies and providing training on Self-Directed Learning Skills
15. National and international project consultancy
16. To ensure that training is provided in line with demands and needs

These studies are carried out at individuals and institutions levels. In addition to the above-mentioned activities, seminars, trainings, project execution, and meetings are organized to strengthen individuals, institutions, and society on a voluntary basis.

**ii. What are the activities and experience of the organisation**

KSEDD company was established on June 2, 2022, and has participated in one international IP Project and has executed three national projects to date. Although the company was established a short time ago, it has experience in national and international projects and has provided training on many subjects. The activities carried out by the company are described below.

**International Project Experience**

Work on the IP project is ongoing. Project Title: Technical Assistance Project for Improving the Quality of Vocational Education and Training through the Establishment of Sectoral Centres of Excellence (TREESP2.1. IQVETIII/P-01-01). The duties carried out by the company in this project are; Responsible for coordination of the senior NKE team, preparation of the mission report and communication with the Beneficiary. Dimensions and technical structure of the training program: learning outcomes, content selection and organization, learning-teaching processes, measurement, and evaluation. This project, which started in 2022, is carried out under the coordination of GFA Consulting Group Company based in Germany.

**National Project Experience and Training**

The company has carried out a total of three national projects, two R&D projects, two completed and one ongoing. These projects are briefly explained below.

1. KSEDD company is the Coordinator and Project Owner: National R&D Technopolis Project, "Model Design for Project Social Impact Assessment"/Ankara University TTO Project (01.06.2022-31.03.2023).
2. KSEDD Company is the Coordinator of an Ankara City Council Project (Social Responsibility Project): "Ankara City Council Earthquake Relief Work Evaluation Report and Model Proposal for Emergency Action Plan" (01.03.2023-10.02.2024).
3. SEDD company is the Coordinator and Project Owner: National R&D Technopolis Project, "Project Social Impact Assessment Model Software Development" Ankara University TTO Project (15.05.2023 is ongoing).

In addition to the projects, many trainings were given on "learning, motivation, Self-Direction Skills, learning skills, learning-teaching style and strategies, project management and planning, instructional design, measurement and evaluation, curriculum design, implementation, evaluation and development".

**iii. What are the skills and expertise of key staff/persons involved in this application?**

KSEDD company has got a lot of persons who are experienced in different kind of education departments. The company carries out projects by making employment contracts with the best experts on a project-by-project basis.

One of them is our legal representative, Kıymet Selvi, who has experience in Erasmus and Horizon projects.

Selvi worked on a total of 17 projects. She served as coordinator in nine of these projects and as researcher in eight of them. She has ten years of experience as a systems analyst and computer programmer, and 25 years of experience as a university academic in the field of education. She made more than 50 visits abroad for education and scientific research.

Within the scope of the EU, she worked with countries such as Finland, Germany, Spain, England, Belgium and the Czech Republic, as the coordinator of the Anadolu University Erasmus Project in Faculty of Education between 2014 and 2017. In addition, she continues her work as a top-grade researcher in a Horizon project in which Ankara University participated as a partner with other eleven countries. The project started in November 2023.

In addition to her experiences in computer programming and education, Kıymet Selvi has the following competencies regarding projects.

1. Writing and developing project concepts, including the theoretical background, goals, objectives, activities, and main phases of the projects
2. Planning, development, and general coordination/implementation supervision of projects
3. Planning project work packages and budget
4. Collaborating and communicating with project partners

Kıymet Selvi has taken part in the following international projects.

#### **Erasmus Project Coordinator in Anadolu University**

##### **Project Title: LETAE - Reinforce the Labour Efficiency of Tertiary Adult Education at Universities**

The project has three methodological pillars: Apparent Good Practice Analysis, Mutual Learning between stakeholders, and tool development. Based on the potential of university-business cooperation and the 18 case examples analysed in the LETAE project, it was investigated how sector-university cooperation in the field of education should be provided to increase the quality of university adult education and traditional adult education. The project was implemented between 2014-2017.

#### **NKE Expert**

##### **Project Title: Quality of Vocational Education and Training through the Establishment of Sectoral Centres of Excellence (TREESP2.1. IQVETIII/P-01-01)**

The duties carried out by the company in this project are responsible for the coordination of the senior NKE team, preparation of the mission report and communication with the Beneficiary. Dimensions and technical structure of the training program: learning outcomes, content selection and organization, learning-teaching processes, measurement, and evaluation. Work on this project, which started in 2022, continues. It is carried out under the coordination of GFA Consulting Group Company based in Germany.

#### **Top-grade researcher**

##### **Project Title Skill Partnerships for Sustainable and Just Migration Patterns (Skills4Justice) - Horizon Europe (HORIZON) Project: 101132435**

Development of systemic analysis of skills shortages in 5 EU countries and 6 non- EU countries in the context of the global workforce migration by providing research-based evidence on the nature and development of skill shortages as well as on the potential of different skills partnerships to tackle these shortages in the countries of origin and destination of migrants. Work on this project, which started in 2023 continues.
